

Special “helical-shaped” connector with a twisted carbon steel body and circular bar, a must-have when an “offset” load is required.

It permits 90° rotation of any connected device (descenders, rope clamps, fall arresters, etc.), optimizing the operating alignment.

Available with Auto Block (3 movements) and Twist Lock (2 movements) sleeve, conform to CE or ANSI standards.

High quality product, made in Italy!

Adventure parks

Scaffolding and trestels, Metal structures, Rope Access, Confined spaces, Treeclimbing/arboriculture, Cableway evacuation, Sailboats, Roof and inclined planes
