

## CRAMPONS

### RUTOR (SEMI-AUTOMATIC)

**NEW**

**SEMI-AUTOMATIC CRAMPONS | 10 POINTS | ALU ALLOY**

Light and compact 10-point aluminum crampons, designed for ski mountaineering and progression on snow.

- Available in automatic and semi-automatic versions, with an ultra-resistant safety cable.
- Structure in light aluminum alloy.
- Innovative system for extremely accurate and stable micro-adjustment of the fit, without the use of tools.
- Innovative rigid/foldable connection system which allows the crampon to bend on itself, reducing the overall dimensions for transport. At the same time, it ensures maximum shoe stability and reliability during progression.
- Special adjustable closure buckle on the security sling is fast and practical during inclination changes.
- Made in Italy!

Supplied with:

- Ultra compact Cordura bag
- Removable front and rear Antibott
- Double sized connecting bars (37 ÷ 43) (42 ÷ 47)

Rutor is the aluminum crampon designed for the demanding ski mountaineer who wants a light performance tool which is safe and reliable in every situation.
