

STRETCHERS ACCESSORIES

LECCO - TWIN WILLY

WHEELS FOR STRETCHER

Twin wheels for a better stability compared to single wheel. It can be used combined with single wheel WILLY. The wheel, with low pressure tyre, can be applied to LECCO stretcher into a baricentric position. Extensible in three heights, it's a great help for transport on paths.

Recommended for

Professional: Rescue activities

Mountain rescue, Firebrigades and civil protection
