

## ENERGY ABSORBERS

### EAW I SET TANGO

Fall arrester with elastic sling in polyamide 30mm width. The energy absorber reduce the impact force and the risk of injuries for the operator.

The energy of the fall is absorbed by the tearing of specific webbing.

Mesh pouch with velcro protects the energy absorber from abrasion and allows regular verification of the absorber's condition with stress indicator.

Single elastic sling version with a TANGO connector.

#### Recommended for

##### Professional: Work activities

Scaffolding and trestels, Metal structures, Portable stairs and elevating platforms, Sailboats, Roof and inclined planes
