

HARNESSES

TARGET PRO

ULTRA LIGHT | FOR DOCTOR, NURSE, HELIRESCUE OPERATOR

Rescue and heli-rescue harness, great also for short duration rope access and positioning, situations where light weight and freedom of movement are primary characteristics.

Main features:

- Wide, breathable and padded leg loops for maximum comfort of use
- Ergonomic waist belt with light structure for the best fit and comfort
- Yellow fluo finishing for the best visibility during operational phase
- Polyester webbing double coloured HT (high tenacity) for a fast check of the right dressing.
- Wide gear loops for maximum efficiency and minimum size
- Comfortable big rear loop for an easy handling of the operator during the different movement on the machine and on the ground.
- Upper part with ergonomic cut, light, breathable and padded for the maximum comfort of dressing and use
- Automatic buckle for a fast dressing
- Short stitched longe for linking upper and lower parts, with engagement ring in contrasting colors for maximum efficiency and absolute operational safety
- High quality product, made in Italy!
