

## HARNESSES

### HAMMOCK SMART

**NEW**

Seat for prolonged suspension, new version characterized by a frame with simplified assembly and textile seat with wider strips.

The removable aluminum frame guarantees maximum lightness and reduced dimensions. The seat is made with a weave of tapes and fits perfectly to the body. This results in incredible ergonomics and a high level of breathability.

Seat dimensions: 485x202 cm.

When disassembled and stored in its bag, the Hammock Smart takes up very little space. Perfect for use combined with the Target Pro Industrial harness.

**Warning: it is not a PPE, to be used always in combination with an harness.**

**Connectors not included.**

#### Recommended for

**Professional: Work activities**

Treeclimbing/arboriculture, Sailboats, Rope Access
